

Basic Rescue Skills for Rock Climbing

Date & Time: Tuesday, October 31, **TIME TBD**

Location: **TBD**

Description:

The Basic Rescue Skills for Rocking Climbing course will be a day long, technical, hands-on rescue course for rock climbers with at least one year of experience. The course will take place in a climbing gym local to the AORE conference in Roanoke, VA. A Professional Climbing Guides Institute (PCGI) certified mentor will discuss common climbing mistakes, related rescue scenarios, and how to safely handle rescue scenarios when they occur. After discussing common rescue scenarios, the mentor will demonstrate rescue techniques used to handle those scenarios. Students will then practice analyzing and resolving rescue scenarios using the presented techniques. Please visit Climbingguidesinstitute.org for more information about the PCGI.

Pre-Requisites:

One year of climbing experience and the following equipment:

1. Climbing harness
2. Four Pear-shaped locking carabiners
3. "Plaquette" Belay/Rappel Device with "Guide" function (e.g., ATC XP or Petzel Reverso)
4. Two cords (5 meter lengths of 7 mm nylon or 5.5 mm Spectra)
5. Five shoulder-length nylon slings/runners
6. Eight carabiners
7. Climbing shoes

Cost: \$190

Organization: Professional Climbing Guides Institute

Workshop Coordinator: Michael Farnsworth - admin@guidesinstitute.org
